

# Dental Insurance

## Keep your family healthy and smiling bright.

Dental insurance can help lower your out-of-pocket expenses so you and your family can maintain healthy smiles – and better overall health, too.

- It pays all or part of your dental expenses, depending on the type of procedure and your plan design.
- Choose a local dentist from a large PPO network and benefit from lower out-of-pocket costs.
- Cover your spouse and your dependent children so you can help your whole family stay healthy.
- Benefit from group rates that may be more affordable than buying dental insurance on your own.

Almost 50% of adults age 30 and older are suffering from periodontal disease.<sup>1</sup>

Periodontal disease can lead to receding gums, loss of teeth, and can increase the risk of other health problems such as heart disease and diabetes.<sup>2</sup>

Take care of your teeth, and they'll take care of you.

Talk to your benefits administrator today to learn more about dental insurance.
